INTRODUCTION TO RESEARCH PHASE II

To enlighten the HLP post-graduate candidates of what is required in a PhD thesis/ Master's dissertation.

An effective thesis cannot be answered with a simple "yes" or "no." A thesis is not a topic; nor is it a fact; nor is it an opinion. A good thesis has two parts. It should tell what you plan to argue, and it should "telegraph" how you plan to argue—that is, what particular support for your claim is going where in your essay.
